

American Sports University

Library Usage Plan and Policy

2015-2016

Our Library at American Sports University needs to have a lot of specialty books. Since not many schools or universities teach what we teach, and we don't expect that the local libraries will be able to sufficiently meet our needs; we have decided that we will use a combination of the Law Library across the Street and the local public library.

Mr. Myer is the Director there and knows our school. This particular law library happens to have won many awards for being one of the top law libraries in the country. We will leverage this library for Sports Law classes and any other law related subject matter.

Law Library for San Bernardino County
402 N "D" Street, CA 92401
(909) 885-3020
Sblawlibrary.org

Students are urged to get a library card at the local library within walking distance of the school. This library will be used to supplement all other program related areas not sufficiently reinforced by our current library.

Norman F. Feldheym Central Library
555W 6th Street,
San Bernardino, CA 92401
(909) 381-8201

We will also buy approximately 150 books to supplement our own ASU Library and add two computers and advise our students of a couple good web sites for reference material

<http://eric.ed.gov/>

<http://www.proquest.com/>.

We feel that this gives a distributed and complete reference of additional program related subject matter. We also plan to hire duly qualified personnel to run our library, but until then; this is our plan to provide for additional reference material to help to enhance the learning environment here at American Sports University.
